

## REXON PRESENTS ITS NEWEST V BELT

### THE REXON **RHINO** – “THE ULTIMATE IN POWER”

- ONE TIME TENSION – “SET AND FORGET”
- UP TO 40% HIGHER POWER RATINGS
- LONGER LIFE
- MATCH FREE
- MANUFACTURED TO WITHSTAND AND SUIT THE MOST DIFFICULT OF VBELT DRIVE APPLICATIONS
- REDUCED MAINTENANCE
- SIZES ARE AVAILABLE IN A GOOD RANGE OF SPA, SPB, SPC AND 8V PROFILES

#### CONSTRUCTION ADVANTAGES:

- Thicker higher loading polyester tension cords
- Cords are reinforced and sandwiched with special rubber cushion compound
- Special angled woven wrapping fabric to prevent elongation, improve flexibility and increase life
- Cross oriented fibre reinforced compound giving belt the transverse rigidity but high flexibility
- Adhesive compound on cords ensuring cord integrity when subject to heat and excessive bending stresses
- Small length tolerance – MATCH FREE
- Meets all ISO oil, heat and antistatic requirements.
- Meets ROHS, REACH requirements
- Works well in extreme temperatures of -40degrees C to +70degrees Celcius
